

Winter 2010

In 2009 we expanded our product lines and extended our client base amongst energy and weather derivative clients. So thank you to all of our customers both new and old.

Environmental Finance

Speedwell is pleased to announce that we have been awarded the honor of "Best Advisory / Data Service" for 2009 by Environmental Finance magazine. We appreciate the support of all those that voted for us.

THE SUPERPACK - Update

Our *Huge inventory* has grown

- one low annual fee
- 50+ countries
- 4,000+ global stations
- Historical data / ongoing feeds
- Hourly & daily data
- Variables: temperature, precipitation, snowfall, wind...

Expanded Data Availability:

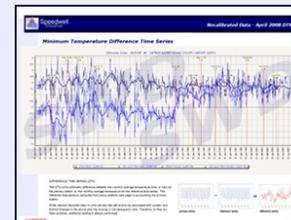

- Hong Kong (*climate*)
- Malaysia (*climate*)
- Spain (*climate*)
- Thailand (*climate*)
- China (*climate feeds*)
- Norway (*climate feeds*)

- US Cleaned snowfall pack
- Increased hourly data coverage world wide

Recalibrated Data

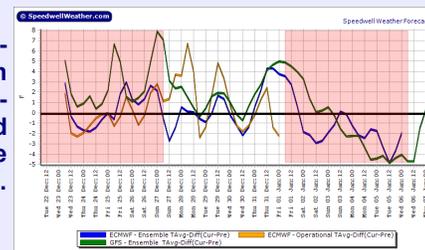

- Recalibration "Light"** - on demand, quick Recalibration of non-CME locations
- great for WD RFPs
 - typical 24-hour turn-around
 - access to the real-time analysis
 - statistical analysis
 - recent metadata review

Update - additional Recalibrated stations now available. European package of 5 locations (Amsterdam, Berlin, Essen, London, and Paris)

ZigZag Forecasts

Real time graphical representation of the change in forecast from the previous model run. Updated as each time step of the model is released. ECMWF and GFS

- *Speed, Speed, Speed...* (reported fastest delivery of ECMWF)
- *Understandable Output*
- *Station Forecasts (cities) or Regions*

Now with the GFS!

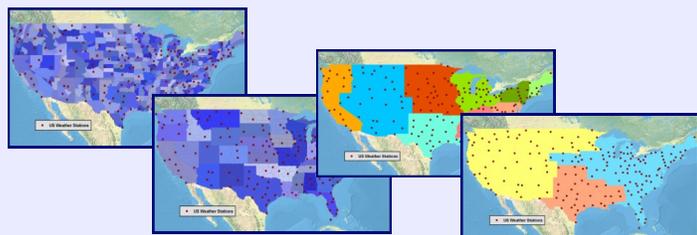

Weighted Degree Day Report

Combining CWG forecasts and SWD data, this product provides the best possible information to anticipate the EIA natural gas storage and withdrawal reports.

- Correlate with energy usage
- Estimate the EIA natural gas storage and withdrawal forecasts (high weather correlation)
- Examine historical events in the context of recent, current, or upcoming extreme weather events

Speedwell Cleaned Data & CWG Forecasts

- 344 Climate Divisions
- 48 State Divisions
- 9 Region Divisions
- Producing / Consuming

Weather Analytics

The Weather Analytics tool shows user-specified weekly index values and compares them with the previous year's values.

		MEADOWS FIELD REPORT (SRL)			
		Actual	Prev Year	Change	
2	Mon 2009-Jan-05	Sun 2009-Jan-11	145.00	138.00	22.88
3	Mon 2009-Jan-12	Sun 2009-Jan-18	81.50	139.00	-41.37
4	Mon 2009-Jan-19	Sun 2009-Jan-25	56.00	49.50	37.43
5	Mon 2009-Jan-26	Sun 2009-Feb-01	95.50	136.50	-31.05

US Retail Sales Weather Report

A weekly report showing weekly temperatures and comparison with previous year. Shown nationally, by state and by region. Based on US census regions and using the NRF calendar.

		US Census Region Temperatures Based On The NRF Calendar	
		Regional Average Temperature in Celsius	Regional Average Temperature in Fahrenheit
1	Mon 2009-Jan-05	10.5	50.9
2	Mon 2009-Jan-12	11.2	52.2
3	Mon 2009-Jan-19	12.1	53.8
4	Mon 2009-Jan-26	13.0	55.4
